### And What Have You

By BOB CRAIG

With the deadline for filing coming up February 7, Jones County politics is getting off to slow start with only two candidates announced by the first of January. Woodrow Simmons has announced for re-election as sheriff and Bill Moore has announced for Commissioner of Precinct One.

Also up for election in the county this year will be the tax assessor-collector, county attorney, commissioner, Pct. 3, and district judge.

First of the primaries will be held on May 6, the second on June 3, and the general election will be held on November 7.

Simmons will be seeking his second term as sheriff and Moore is seeking the post now held by veteran commissioner Johnnie Agnew. Agnew is not expected to seek re-election. Moore is beginning his 23rd year as an employee of Jones County in Precinct One.

Not only are the candidates getting off to a slow start but the voters are slow in registering. Only a little over half of the potential voters in the county have registered. The potential voting strength of the county is about 7,000 and only 4,442 had registered up to December 7.

This will be a big year for voters since it is a presidential election year and it appears there will be several strong state-wide races for Senator, Governor and Lt. Governor. There will also be at least 14 amendments to the state constitution to be voted on in November.

Although voters this year will have until 30 days preceding an election to register it would be much better if everyone would register early.

Congratulations are in order to Coach Bobby King and his Pipers for their victory over a strong Slaton team which gave them the championship in the Rotan Basketball Tournament last Thursday. Our congratulations go too, to Coach Deane Wright and His Piperettes for capturing third place in the same tournament.

We would also like to congratulate Barry McDonald on being one of 10 area seniors to be nominated to the U. S. Naval Academy. It will be some time before word will be received on which of these 10 young men will receive the appointment but just being nominated is quite an honor.

The new requirements for all motor driven vehicles went into effect with the first of year and will likely cause some concern, especially among area farmers. For the most part it will be farmers who will be affected by the new requirements.

From what I can read the only thing really new is having two instead of one tail light and stop lights, plus hazardous warning lights on all trailers and trucks 80 or more inches wide.

Brake requirements, reflectors or clearance lights are not actually being changed on farm trailers.

Because of the way the new law is written there is some confusion about the brake requirements for boat trailers and camping trailers and some of these will probably have to add brakes to their existing equipment.

Most cars and trucks will meet the new requirements with their existing equipment. It is possible that some buses will have to have equipment added.

Equipment requirements on farm trailers are tail lights, white light in the license plate, reflectors, stop lights and clearance lights.

The vehicles must have two tail lights visible for 1,000 feet on the rear of the vehicle and both must be mounted on the same level. They

The Hamlin Eighth grade basketball teams split two games with Rotan Monday in the opening round of the Anson Junior High Tournament. The girls defeated Rotan 29-16 and the boys lost to Rotan 23-20.

Melissa Madden was high for the girls with 12 points and Daniel Willis was high for the boys with 11 points.

The boys will play again Saturday morning at 10:35 and the girls will play at 11:40. The boys will meet the loser of the Haskell-Merkel game to be played Thursday and the girls will meet the winner of the girls game between the same two schools.

If the boys win their second game they will advance into the consolation finals with the game starting at 6:20 Saturday evening. If the girls win they will advance into the finals at 7:25 Saturday evening. Losers of the second game do not play again.

Monday evening the three junior high teams will host Stamford here with the seventh grade boys playing at 5:30.

### Local Students Attend Uncle Sam In Action Luncheon

Martha Ellison, Diane Ford, Tracy Rowland and Mike Herd were guests of Lois Dunlap of the Uncle Sam in Action program at a luncheon Thursday at the Towne Crier in Abilene. Others present were members of the board of directors of the USA organization and personnel from KRBC-TV.

The four youth from Hamlin High School went to the studios of KRBC-TV for a taped interview with Mr. Dunlap as "Uncle Sam." The interview promoting patriotism will be aired later this month.

quarter lead and led up until the final 12 seconds when Stamford tied the score at 29-29. Rodgers got off his winning shot as the buzzer sounded. Leonard Johnson was high for the Pipers with 12 points and Freddie Washington led the Bulldogs with 18.

Becky Wright scored 22 points to lead the Piperette scoring as they defeated Stamford, 58-34.

The Hamlin B team defeated Stamford, 51-27.

The three local teams will travel to Rotan Friday and then host Anson here Tuesday. Last Thursday the Pipers captured the championship trophy in the Rotan invitational Tournament by defeating Slaton, 63-56. Leonard Johnson was high for Hamlin with 25 points.

The Piperettes downed Roby, 36-26, in the same tourney for third place. Alice Cooper was high for Hamlin with 13 points.

## Retailers Warned to Post Base Prices Prominently

DALLAS — Ellis Campbell, Jr., District Director of Internal Revenue for North Texas, today warned all retailers in North Texas that Price Commission regulations require them to have posted their base prices before January 2, 1972. Under these regulations every retailer must display his base prices prominently in each department in his place of business making this information openly available to the public.

Those items for which base prices must be posted are determined by the retailers' total sales in their last fiscal year: Less than \$100,000 — Those 40 items that had the largest dollar sales volume during their last fiscal year, or those items that accounted for at least 50 percent of total dollar sales during that year, whichever is less. These retailers may consider themselves as a single department for the purpose of the base price posting requirement.

More than \$100,000 — Those 40 items in each department that

had the highest sales volume during the last fiscal year, or those items that accounted for at least 50 percent of total dollar sales in each department during that year, whichever is less.

In addition, these retailers must post base prices on all of their food products which are not exempt from price regulations.

The important point for retailers to remember, Mr. Campbell said, is that base prices must be posted prominently in each department where the items for sale are displayed. Prices are not considered to be displayed "prominently" if a shopper can obtain access only through requesting base price information from the retailer or one of his employees.

### Barry McDonald Gets Nomination To Naval Academy

Barry McDonald, Hamlin senior, is one of nine area young men to be nominated for appointment to the U. S. Naval Academy by Representative Omar Burleson. Barry is the son of Mr. and Mrs. Claude C. McDonald.

Burleson named a slate of four to the U. S. Military Academy and a slate of 10 to the U. S. Air Force Academy.

The Academies will now examine and appraise the nominees and select principals for admission, and qualified alternates from each slate. Alternates may be given further consideration by the respective Academy, depending upon available vacancies.

# Winter's First Storm Hits Hard Here Tuesday

The winter's first blizzard hit the Big Country Monday evening and held temperatures down in the teens for most of Tuesday and Wednesday. The storm was accompanied by light snow flurries and sleet with the Hamlin area only receiving a small amount of moisture.

A low of 14 degrees Tuesday morning and a low of 12 degrees on Wednesday morning was recorded here at the Santa Fe depot.

Although as much as three inches of snow had been predicted for the Big Country, only intermittent snow flurries and sleet fell over most of the area. The storm was accompanied by hard blowing winds.

With only a light cover of snow and sleet on the ground the local schools remained opened but as many as 26 schools were reported closed over the area.

In the height of the storm Tuesday morning a major fire broke in a beauty shop in Aspermont which spread to two abandoned buildings and caused smoke damage to several other businesses.

The Hamlin Fire Department sent a truck and some men to help fight the fire. Other men and equipment from Jayton, Rotan and Rule joined in the fire fighting effort that took about four hours to bring under control.

The area's on again, off again cotton harvest was brought to a halt again by the storm. The harvest has been plagued all fall by too much moisture and now has been stopped by the

### Area Baptists Set Evangelism Conference Jan. 24

The Baptist Double Mountain Area will conduct an Area-Wide Evangelism Conference Monday, Jan. 24 at the First Baptist Church in Stamford. The Conference will be in two sessions, one in the afternoon and the other that evening.

There will be two special guest speakers, from out of the state, featured along with several men from this area. The guest speakers will be Dr. William L. Bennett, pastor of the First Baptist Church, Fort Smith, Arkansas and Rev. Leon Kilbreth, a Sunday School Evangelist from Greensboro, North Carolina.

The conference is sponsored by the Southern Baptist Churches in the six counties that make up the Baptist Double Mountain Area. They are Fisher, Haskell, Jones, Kent, Knox and Stonewall Counties.

The public is cordially invited to attend each session of the conference.

### Volunteer Fire Department Sets Elections Friday

The Hamlin Volunteer Fire Department will have its annual election supper at 7:30 p.m. Friday.

New officers for the coming year will be chosen.

All honorary members are invited.

### BERNAL BABY FIRST BABY OF NEW YEAR

Dianna L. Bernal, daughter of Mr. and Mrs. Cecilio R. Bernal Jr. was the first baby of the New Year born Jan. 1 at 4:45 a.m. at Hamlin Memorial Hospital. She weighed 6 lbs. 7 oz.

Mr. and Mrs. Daniel R. Mata are parents of a boy, Jesus Gimaldo, born Jan. 3, at 11:25 a.m. He weighed 9 lbs. 10 oz.

Mrs. O. R. Shelton spent Christmas through New Year's holidays with her daughter and family, Mr. and Mrs. Dan Kerr and boys, Gary, Dick and Eddie, in Denver City.

bitter cold.

Watts Fletcher, manager of the Hamlin Farmers Cooperative Gin, reported Wednesday morning that 1,714 bales of cotton had been ginned up to this time and that he was guessing that this was about one-third of the total that they would gin. He said he thought

that some stripping might get underway Wednesday afternoon.

Hollis Madden, manager of the Neinda Farmers Cooperative Gin, said Wednesday that they had ginned 1,280 bales and that this was probably about one-third of their expected total also.

## Voter Registration Far From Complete In County

Though the January 31 deadline for voter registration has been removed since the 1970 election year, there are still advantages in qualifying early for voting in 1972, it was pointed out recently by Jones County Tax Assessor-Collector Louis Johnson.

Local voters who have not completed their registration already would do well to get the job done during January so they can be included on the original 1972 list of registered voters which will be prepared by the tax office. Copies of the list will be furnished the Secretary of State and County Clerk Roy Thorn. Late registrants who qualify before the only deadline of "30 days prior to the election in which they wish to vote," will be added in supplements to the original list.

Registration in this county was lagging as 1971 drew to an end it was indicated in the total of 4,442 voters who had qualified for certificates through December 7. Last year's registration totaled 5,735 and the potential voting strength of the county is around 7,000, Johnson said.

Registration applications were mailed earlier to all adults who registered last year and over 1,200 have yet to sign and return the applications. This does not include the adults that did not register last year and the teenagers, who are now eligible to register and qualify for voting in 1972.

Since 1972 is to be a very important election year all citizens are being urged to complete, as early as possible, the voter registration requirements for voting in all of the regular elections and on any special issues that may arise, W. H. Galbreath, newly appointed County Democratic Chairman for Jones County, said.

"I think that 1972 is to be a crucial year in politics and other matters relating to our government and economy. One example being the pending changes in our school tax structure that apparently will

become necessary because of last weeks court ruling," Galbreath said.

"I hope that everyone will realize the importance of their responsibility as citizens to complete their voter registration early and be ready to vote intelligently in the upcoming regular, and any special elections, that may be called," the county chairman concluded.

### Burnia Reid Announces for Commissioner

Burnia Reid announced this week that he would seek election as Commissioner of Precinct One of Jones County.

Reid, a Hamlin area resident, said that he would issue a formal statement at a later date.

### Foursquare Gospel Church to Start Revival Sunday

Rev. Alice Harrell of Vicksburg, Miss., a former pastor of the Foursquare Gospel Church will return Jan. 9-16 to hold a revival, according to the present pastors, Rev. and Mrs. Carl Pool.

Services will be held nightly at 7:30 except on Sunday when services are at the regular time of 7 p.m.

Rev. Harrell was pastor here for a number of years when the church was being built. She has been in Mississippi since 1950 when she left here.

She will be including her experiences from a trip to the Holy Land.

### Masonic Lodge To Meet Monday

Hamlin Masonic Lodge No. 958 will meet in regular session Monday at 7:30 p.m.

A 50-year service award will be presented to D. B. Sauls by Arnold Baxter.

Members and visitors are urged to attend. Refreshments will be served.

## Renewal Applications In Mail Vehicle Registration

AUSTIN — If you own one or more of the more than seven-and-a-half million motor vehicles in Texas; some important mail is coming your way.

The first of 7.5 million renewal applications from the Motor Vehicle Division of the Texas Highway Department were dispatched from the Post Office's facilities in Dallas on Friday, Dec. 31.

Owners of motor vehicles should be receiving the renewal applications — for obtaining 1972 Texas license plates — early in January.

The actual motor vehicle registration "season" at county tax offices does not begin until Feb. 1.

However, vehicle owners may go ahead and order their license plates by mail immediately.

All that is required is to send the entire renewal application,

the registration fee and \$1 for each vehicle to be registered to the local county tax office. License plates will be returned by mail after registration begins formally on Feb. 1.

Vehicle owners should allow at least 30 days for processing and delivery. The application should be sent to the local county tax office — not to the Texas Highway Department.

License plates can be obtained in person at county tax offices and designated substations beginning on Feb. 1.

In any case, registration will go faster if the owner leaves the three-part form intact and does not separate any of the three parts.

Complete, easy-to-follow instructions are contained on the form and on the envelope.

Deadline for displaying 1972 license plates is midnight, Apr. 1.

MRS. RANDY WISEMAN  
... formerly Margaret Ann Johnson

# Johnson-Wiseman Vows Exchanged

Margaret Ann Johnson, daughter of Mr. and Mrs. W. T. Johnson, and Randy Wiseman, son of Mr. and Mrs. Roy D. Wiseman of Haskell, were married here Thursday at 7 p.m. in First United Methodist Church.

Officiating ministers were Rev. Johnnie Williams, pastor, and Dr. Harry Sarles, pastor of the First Presbyterian Church of Haskell.

Mrs. Brad Rowland was organist.

Terri Wallace of Lubbock was maid of honor. Bridesmaids were Mrs. Ronnie Jeffrey of Irving, Mrs. Mike Field of Dallas and Vicki Newland of McAllen.

Derral Davis of Dallas was best man. Groomsmen were Rick Buford of Dallas, Jim Carter of Abilene and Sammy Ferguson of Austin.

Candlelighters were Bill Johnson and Jim Johnson, both brothers of the bride.

Steve Belt of Lockney and Troy Schwartz of Haskell were ushers.

Presented in marriage by her father, the bride wore a gown of candlelight organza, heavily enhanced with hand clipped Chantilly lace motifs designed with high neckline, empire bodice and bishop sleeves. Motifs were repeated on the A-line skirt and edged the detachable chapel train which was held at the back with bow and streamers. Her veil of bouffant illusion was held by a headpiece of matching lace touched with pearls and a cluster of bows.

She carried a nosegay of yellow roses.

Attendants' romance gowns with scoop neckline and lace A-line skirts were accented with matching hot pink lace and velvet ribbon at the edge of the elbow length sleeves and the empire waist. Matching triple bows held brief veils. They carried nosegays of mixed flowers in shades of pink.

The reception was held in the church parlor.

The bride graduated from Hamlin High School and attended McMurry College, the University of Hawaii and graduated from Texas Tech University. At Tech she was on the Dean's list and a member of Pi Delta Phi, French honorary fraternity. She is employed by Arlington Public Schools in Arlington.

The bridegroom, a graduate of Haskell High School, attended McMurry College and Texas Tech University where he was a member of Alpha Tau Omega, National Fraternity. He is a student at the University of Texas at Arlington.

The couple will reside in the Woodcrest Apartments in Arlington.

The bridegroom's parents hosted the rehearsal dinner at the Cliff House in Stamford.

Mrs. Vincent Powell, Mrs. Ruth Thayer and Mrs. Louana Yagla. Visitors in the home of Mr. and Mrs. Beno Hertenberger last week included their grandson and family, Lt. and Mrs. Don Hertenberger and Lori of Killeen.

Mrs. Hilda Neumann and daughters, Linda and Beverly, spent several days in Orange Grove with Mrs. Neumann's other daughter and husband, Rev. and Mrs. Gary Bruns.

Get well wishes go to: Mrs. W. G. Wienke, who is a patient in Stamford Memorial Hospital; Mrs. Alfred Letz, who is recovering from surgery in Hendrick's Memorial Hospital in Abilene; Lynn Flowers, who is in Temple undergoing an examination and treatment; and Herbert Klump, who is at home, but he is still on the sick list.

# Capital NEWS

AUSTIN — A three-judge federal court in San Antonio stunned Texas public officials with a Christmas Eve decision that the state's system of financing public schools is unconstitutional.

The ruling, which Lt. Gov. Ben Barnes called one of the most far-reaching in recent history, triggered a round of new studies and re-directed attention to prior studies of alternative finance formulas.

To make education "a function of the local property tax base" violates constitutional guarantees of equal protection under the laws, the three judges held. Parents and children of Edgewood Independent School District (Bexar County) filed the suit on July 30, 1968.

Allowing each district to set property taxes to raise a portion of instructional costs discriminates against poor districts with low property values and frequently high minority group populations, the court contended.

Judges gave state legislators two years to work out a new system. If lawmakers fail, they warned, the court "will take such further steps as may be necessary to implement both the purpose and the spirit of this order."

Some observers feared the ruling would undermine local control of school districts. Atty. Gen. Crawford Martin asked the court to clarify whether the decision meant districts could not continue to pay off their bonds from property taxes.

Gov. Preston Smith said it would be premature to speculate on ultimate effect of the ruling.

Shopping for a studio couch, Myrtle followed the friendly salesman to an obscure nook at the back of the furniture store. Suddenly, while they were talking about fabrics, the salesman seized her in a violent embrace.

Myrtle was so outraged that she not only had the man fired but also sued the owner of the store for damages.

"This was a clear case of assault and battery," she charged in court. "And every employer is responsible for the acts of his employees."

But the court disagreed and rejected her claim. The judge said the owner was not responsible for an act that was so completely separate from the job of selling furniture.

This is a general rule of law, that an employer is not liable for an employee's personal misconduct outside the scope of his job. Thus, the owner of a bar was held not liable when a mischievous waiter gave a customer a painful hotfoot.

It is a different story, however, when the employee's duties do include a certain amount of physical contact with the public. Take this case:

At a movie matinee, a noisy teen-ager was ejected from the theater by an irate usher. In doing so, the usher used considerably more roughness than was necessary.

This time, when the teen-ager sued the management for damages, the court pointed out that policing the customers was part of the job of ushering. Even though the usher overdid it, the court said that the theater, as his employer, would have to pay damages.

Furthermore, certain employers may be held liable because of an extra duty they owe the public. For example, a railroad had to pay damages after an amorous conductor forced several kisses on a reluctant woman passenger.

To be sure, kissing passengers was not within the scope of a conductor's job. But the court said that the railroad, as a public carrier, owed an extra duty to protect its passengers from harm—a duty which in this case it had clearly not performed.

The ruling on taxes and educational programs. Some predicted state corporate and personal income taxes will be necessary to pick up a new state cost load estimated to range at least as high as \$500 million a biennium.

Smith called for a team effort by state officials and agencies, local school authorities and the courts to reach a satisfactory solution. The Senate Committee on Occupational Education immediately took up the problem. Texas Research League already is studying the foundation school program, and

plans to offer some choices by the end of next year.

Governor said he is considering naming an education task force which will cooperate with other study groups.

State Education Commissioner Dr. J. W. Edgar viewed the present crisis "as another opportunity for the people to design a better public educational opportunity for the children and youth of Texas."

He expressed confidence such a plan can be developed which will preserve local school control.

State Board of Education will review the decision at a January 8 meeting. Meanwhile, Martin asked the court whether the ruling permits an appeal.

**WELFARE PROBLEMS GROWING** — Warning that Texas faces its most difficult welfare problems during the next two years, Governor Smith

said drastic assistance cuts may be necessary after next September.

At the same time, the Governor announced appointment of former U. S. Secretary of Health, Education and Welfare Wilbur Cohen as a special advisor to help him formulate plans in the areas of welfare and child development.

Smith said he will go before the U. S. Senate finance committee next month to renew a plea for complete federalization of welfare program financing.

Current assistance levels can be maintained within the state's 80 million constitutional ceiling for major categorical welfare programs the rest of this fiscal year. After next September, however, he said average aid to families with dependent children grants may have to be slashed from \$116.66 a month to \$77.

Smith assigned top priority to attacking the growing welfare problem, which he estimated will cost \$325 million next year. He said findings of a new commission on children and youth will be among cornerstones of his message to the 1972 special legislative session.

**DDT BAN ANNOUNCED** — DDT, will not be allowed for household use in Texas after Aug. 31, under an order issued by Agriculture Commissioner John C. White.

White's order follows recommendations of the Pesticide Advisory Committee created by the legislature.

White emphasized it has no bearing on DDT for agriculture and public health uses. About half DDT now used in the state is utilized around the home. After August, registration of DDT for household purposes will not be permitted.

**UNEMPLOYMENT BENEFITS EXTENDED** — Extended unemployment compensation benefits will go into effect early in January.

January 10 is the first date claims may be filed for them in Texas. Benefits are payable only to claimants who have exhausted regular benefits. Claimants may receive as much as 50 percent of total regular unemployment benefits, payable at the same weekly rate as regular benefits. Those covered must not be eligible for regular benefits in any state or territory and must have a benefit year that ends on or after January 2.

**SHORT SNORTS**

Top Texas officials are still pushing for retroactive pay raises for all Texas state employees, including school teachers.

More than half the drug offenders in Texas prisons have been involved in other crimes. About 12.4 per cent of the total prison population is made up of these drug users.

The State Board of Education will hold no more hearings on 1971 textbook adoptions at its January meeting.

An application has been filed to charter Sugar Creek Bank in Sugarland.

First Savings and Loan Association of Bowie is seeking a branch office in Gainesville. A tentative hearing has been set for Feb. 15.

All retailers must prominently display base prices in each department, Internal Revenue Service advises.

More and more Texans are moving to apartments, according to a University of Texas "Business News" study. Workshops to brief teachers

on best use of reading and math test results will be held in 20 centers beginning January 10.

## Neinda Philosopher Claims Senator's Idea of Work May Set Bad Precedent

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One probably is unnecessarily disturbed over something he read, his letter this week indicates.

Dear editor:

According to an article I read during one of the half-times last weekend, when Congress gets back into session shortly the only woman in the United States Senate is going to propose a Constitutional amendment requiring members of Congress to be on hand oftener.

Absenteeism, she said, is the Senate's greatest disgrace and she is going to introduce a Constitutional amendment providing for the automatic expulsion of any Senator or House member not present for

at least 60 percent of the roll call votes in any session.

This is dangerous legislation and I hope the absent Senators and Congressmen will show up long enough to vote against it.

You require a Senator or a Congressman to work 60 percent of the time and the first thing you know some Washington bureaucrat will get the notion the rule ought to apply to everybody.

I don't want anybody coming out here to my place telling me if I don't work 60 percent of the time I'll be expelled. I can't imagine Congress declaring it's unconstitutional to loaf.

Personally I always work more than 60 percent of the time, but I work under my definition of the word, not some woman Senator's.

I don't know what Senators

and Congressmen do while they're gone 40 percent of the time, outside of running for President, but they've been on hand often enough now to pass more laws that most of us can obey.

Work is something I don't want anybody coming around to tell me what it is, and you can straighten out the grammar if you want to. Mayor Lindsay of New York knows what I'm talking about. While in Florida last week announcing he's running for President and will campaign all around the country, and when asked what about his job as mayor, he said "I'm mayor of New York 24 hours a day, seven days a week."

Those are my sentiments exactly. I run this place 24 hours a day seven days a week and it'd scare me to death to have some woman Senator come out here and pick my notion of work to pieces with a fine-tooth comb. I admire Senator Margaret Chase Smith of Maine but this time she's gone too far.

Yours faithfully,  
J. A.

## Genetics Clinic Goes on Road To Take Counseling To People

by Dr. Charles J. Epstein  
Director, March of Dimes  
Genetic Counseling Clinic  
San Francisco, California

In Santa Barbara, Calif., more than 200 miles south of San Francisco where his day started, Dr. Charles J. Epstein sets up his March of Dimes Genetic Counseling Clinic and studies the reactions of 6-month-old Andrew Herman and then his brother Robert, 3. Both have congenital nerve deafness.

A burst of public interest in genetics has followed the announcement of recent dramatic advances in this relatively young science.

Amniocentesis has made it possible to predict with certainty months before birth that an expected baby will be born with or without certain genetic diseases.

As a result, genetic counseling, a form of applied human genetics, can now give parents hard facts in cases where before it was possible to give only odds.

But one problem is delivery: How do you make genetic counseling available to the people who need it?

Genetic counseling clinics are part of the answer. With support from the March of Dimes we have established a clinic here at the University of California Medical Center in San Francisco.

This genetics clinic is unique because it is the only one in the country—as far as I know—that travels far into outlying areas to carry genetic counseling to the people.

Our routes take us over the Golden Gate Bridge and north to Marin County, across the Oakland Bay Bridge 60 miles west into the San Joaquin Valley, and more than 200 miles south to Santa Barbara and San Luis Obispo.

nancy they undergo will run a certain risk of producing a child with that disease and we can compute the odds. If we find someone who is a carrier of a chromosome defect that can be transmitted to their offspring—a relatively rare occurrence—then we do a chromosome analysis on everyone in the family. Then all who are carriers will be aware of it.

The majority of couples we see have had a child with a defect and their fears have raised questions: What are our chances of having another child with this same disease? If we have normal children, what will be their chances of having children with this disease?

### Fetal Cell Study

For the woman who has had a child with a serious genetic defect—one form of mongolism, for example—and finds herself pregnant again, the anxiety can be overwhelming. Many couples in this position don't believe themselves able to cope with another child with the same defect. It is for them that amniocentesis has particular value.

Between the 12th and 16th

week of pregnancy, fetal cells can be withdrawn in the amniotic fluid surrounding the fetus. A study of these cells can determine whether there are chromosome abnormalities and some of the enzyme deficiencies that will produce malformed or mentally retarded children. When these diseases are diagnosed, the parents will need to decide whether to have such a child. When the tests indicate a normal fetus, the relief and joy of the parents promotes a healthy attitude for the duration of the pregnancy.

In nearly all cases, the people we see are happy to get a straight story—good or bad. It takes some of the speculation out of the very hard decisions they have to make.

### Research Effort

When we are not seeing people in our clinic we are continuing our research, supported by the March of Dimes, the federal government and some private agencies. We are looking for the basic chemical differences between normal and chromosomally abnormal cells. Understanding how the metabolism of a defective cell differs from a normal cell should help us understand how chromosome errors cause birth defects.

We are also investigating the very early development of the embryo after fertilization, and the development of sperm and eggs before fertilization—anything that could go wrong and lead to an aberration of birth.

The number of diseases that can be detected before birth will grow in the future. Better ways will be developed for screening for carriers, especially for those genetic diseases that are concentrated in specific population groups, such as sickle cell anemia in the blacks and Tay-Sachs disease in those of Jewish ancestry.

As the medical community becomes more aware of which diseases have a genetic basis, much of the kind of counseling we do in our clinic will be done by the physician at the local level. In the meantime, clinics like ours will fill part of the gap.

Guests of Mr. and Mrs. Lee Ward Christmas week were Rev. and Mrs. Marvin L. Ward, Mitzi and J. J. of Muskogee, Okla.

## Final Payment of Estimated Tax Due January 17

DALLAS.—The deadline for final payment of 1971 estimated Federal income tax is Monday, Jan. 17, 1972, Ellis Campbell, Jr., District Director of Internal Revenue for North Texas, said today.

Some persons may have to make an amended estimate by January 17 if their income changed substantially during the last quarter of 1971. Space to compute an amended estimate is provided on the worksheet contained in the estimated tax package received by taxpayers for 1971.

Other taxpayers may have to file an original 1971 declaration on Form 1040-ES by January 17 if they just met the filing requirements during the fourth quarter, according to Mr. Campbell.

Payment of the last installment or the filing of an original or amended declaration otherwise due January 17 is not required if the taxpayer files his 1971 income tax return and pays all of the tax due by Monday, Jan. 31, 1972.

Due dates are different for farmers and commercial fishermen, Mr. Campbell said. Publication 505, "Tax Withholding and Declaration of Estimated Tax," furnishes additional information on this subject and may be obtained free, in person or by mail, from your IRS district office.

### Use Care With Repellents

Read directions carefully on insect repellent spray cans. Some have chemicals that will damage synthetic material. Some repellents will soften plastic shotgun shells, causing them to slip in the gun, and turn nylon line on a fishing reel into a sticky jelly.

### Match Box From Hulls

Used shotgun shells make handy, waterproof match stick containers. Put the matches in a 20-gauge hull and then slip a 12-gauge hull over the open end.

### Metal Stringer For Drag

A metal-chain fish-stringer with all hooks open is useful in retrieving a rod and reel dropped overboard. Drag it back and forth over the spot. The open hooks will snag your lost gear.
